

# EXCITING JOB OPPORTUNITY

**Are you interested in photography, the great outdoors and watching the world go by? We have a strange and amazing opportunity for two local residents.**

ScanLAB Projects are documenting a series of local sites in 3D over the next 6 months. We are looking for two local residents to perform daily capture of some beautiful local spots in **Morston, Sidestrand, Felbrigg and Happisburgh.**

Between the two successful applicants they will visit a series of spots EVERYDAY for up to 6-8 months. They will perform a 3D scan using specialist equipment and take colour photographs. You will be helping us make a truly groundbreaking and beautiful piece of work. The job would suit a photographer, ex military personnel, an outdoor enthusiast, a keen walker, a dog walker ...

The two candidates will ideally know each other and live in close proximity. Between the two candidates one must be available EVERY DAY over the next 6-8 months. Including weekends, Bank Holidays, wet days, hot days, sunny days, cold days, windy days ...

Full training will be given and experienced ScanLAB employees will be available to support you.

The job will require:

- A working day of approx 10 hours
- Immediate, long term availability - starting around the 4th / 5th April
- Driving license and own vehicle
- A good knowledge of photography
- Taking responsibility for operating expensive equipment
- Independence, structured and organised thinking and planning
- Physical fitness: willingness + ability to walk a long way carrying heavy equipment over challenging terrain.
- A willingness to work whatever the weather.
- Happy to work alone (or with your dog - could be perfect for a dog owner !!)
- A sense of zen - you need to be excited by this opportunity to watch the location change over time and confident you will not get bored!
- Flexibility - one of these locations is tide dependent so daily timing may have to adjust
- We expect a 4 day a week / 3 day a week split between two successful candidates.

Pay + expenses:

- Your vehicle / fuel expenses will be covered
- Salary approx £10/hour.
- You will become a PAYE employee and all of the accompanying benefits (paid holiday etc).

## **About ScanLAB Projects**

We digitise the world, transforming temporary moments and spaces into compelling images and film. To do this we use cutting edge, amazing 3D scanning technology. We make our own artworks alongside groundbreaking technical R&D and visual material for leading TV programmes. Prestigious previous projects include BBC ONE's *Invisible Cities* series with Alexander Armstrong. *Pompeii New Secrets Revealed* with Mary Beard. *Lost Cities of the Mayan* (Channel 4 + Nat Geo). We are currently showing our artwork Post-lenticular Landscapes at the Royal Academy.
